Introduction to the First Destination Survey for 2020

<u>Includes data from classes graduating in Summer 2019, Winter 2019, and Spring 2020</u>

Highlights:

- The overall success rate is 99% and includes those who were employed in- or out-of-field, enlisted in the armed forces, involved in volunteer services, enrolled in graduate/professional school, or continuing their education at the vocational/associate/bachelor's level. Our overall success rate has consistently been in the 96-99% range for the past 10 years.
- <u>The success rate in-field is 95%</u>, which includes those individuals who achieved a placement related to their academic field of study.
- The knowledge rate is 85%, a number which has varied from 82-89% in the past 10 years. It exceeds the 65% minimum knowledge rate recommended by the National Association of College and Employers.
- <u>68% of our graduates remained in Wisconsin</u>, which is consistent with data from the past decade. La Crosse retained 31% of our graduates, and 42% stayed within the Coulee Region.

The undergraduate First Destination Survey reports the initial post-graduation outcomes of recent Associate and Bachelor Degree recipients.

Data were collected through survey and outreach efforts conducted by the Career Services staff within approximately six months of graduation. Information either came directly from the graduate or was obtained through credible sources (e.g. family members, online sources, faculty, and other staff members). Good faith efforts were made to ensure the accuracy of the information obtained by any source other than the graduate.

All percentages in this report are based on the total number of graduates <u>reporting</u>, not the total number of graduates. Graduates reporting that they are currently not working <u>and</u> not seeking employment are not included in the placement tabulations. In addition, percentage calculations above .5 have been rounded up to the nearest number, and those below .5 have been rounded down to the nearest whole number. Definitions of terms utilized in this report and explanations of specific calculations appear on pages 3-4 of this report.

A total of 433 individual graduates were listed on the official graduation lists as of December 1, 2020. 10 of these students completed studies in two majors, resulting in 443 majors being conferred degrees.

Questions regarding this report may be directed to Beth Dolder-Zieke at 608.796.3827 or bdzieke@viterbo.edu.

Definition of Terms/Explanations of Calculations

- 1. The "number of majors" category reflects the total number of graduates completing a specific major; the total number of majors may be somewhat larger than the number of graduates, as some graduates complete multiple majors.
- 2. The "number reporting" category refers to graduates about whom data was gathered from sources deemed reliable by the Career Services staff. Examples of those sources include information obtained via forms and online surveys completed by graduates, telephone calls to the graduate or their family members, emails from the graduate, information from online sources, and information from professors and other personnel who have remained in contact with the student.
- 3. The "knowledge rate" category is the percent of graduates for whom the institution has reasonable and verifiable information concerning post-graduation career activities. [% calculation: Row 3/row 2]
- 4. The "not seeking" category includes people who report they are not a part of the work force or are continuing their education, and are not seeking employment at this time.
- 5. "<u>Total reporting/less not seeking</u>" is the difference between number reporting and the number not seeking. Outcome calculations are based on this number. [calculation: row 3 minus row 5]
- 6. "Success rate overall" (formerly placement rate) refers to those individuals about whom data was collected and who indicated they were employed either on a full-time or part-time basis in or out of their fields of study, enlisted in a branch of the armed forces, involved in volunteer service (e.g., AmeriCorps, Peace Corps), and/or enrolled in graduate or professional school or other continuing education. This number is the sum of the categories "success rate: in field" and "employed out of field." [Row 9+10+19+20+21+22/row 6]
- 7. The "success rate: in field" category includes individuals who report their primary activity is employment in their field of study, enlistment in a branch of the armed forces, involvement in volunteer service (e.g., AmeriCorps, Peace Corps), and/or enrollment in graduate/professional school or other continuing education. (NOTE: Employment in field is based on students' self-disclosure of whether they perceive their employment related or not related to their education) This number is the sum of employed in field, military, volunteer service, grad/professional school, and other continuing education categories.

 [% calculation: Row 9+19+20+21+22/row 6]
- 8. The "employed in field" category includes individuals who report being required to complete a specific major for their current employment positions or doing work that requires a college degree and/or utilizes the knowledge/skills acquired during their college education. Graduates with double majors who are working in fields related to one of their majors are listed as "employed in field" for their respective listings in both majors. (NOTE: Employment in field is based on students' self-disclosure of whether they perceive their employment related or not related to their education) [% calculation: row 9/row 6]

- 9. The "employed out of field" category includes individuals who report working in positions not requiring a bachelor's degree and/or positions that do not use the knowledge/skills they gained from their programs or majors. [% calculation: row 10/row 6]
- 10. The <u>"employed full time"</u> category is defined as a position in which the graduate works for 30 or more hours per week. [% calculation: row 11/row6]
- 11. The "employed part time" category is defined as a position in which the graduate works for fewer than 30 hours per week. [% calculation: row 12/row 6]
- 12. "Employed as entrepreneur" [% calculation: row 13/row 6]
- 13. "Employed in temporary or contract work" [% calculation: row 14/row 6]
- 14. "Employed as a freelancer" [% calculation: row 15/row 6]
- 15. "Employed in post-graduate internship or fellowship" [% calculation: row 16/row 6]
- 16. The "<a href="mailto:employed and seeking" category is comprised of those graduates reporting they are currently employed but also seeking other employment at the time they completed the survey. [% calculation: row 17/row 6]
- 17. The "employed in all other categories" section includes graduates who are not classified in categories 12-15. This is the employment category for the majority of graduates in the workforce who report working in an ongoing position for a public or private organization or business. [% calculation: row 18/row 6]
- 18. Individuals listed in the "<u>military</u>" column are those who report their primary activity is in a branch of the armed forces. [% calculation: row 19/row 6]
- 19. The "<u>volunteer service</u>" category includes individuals who report their primary activity is in a volunteer or service organization, such as AmeriCorps or the Peace Corps. [% calculation: row 20/row 6]
- 20. The "graduate/professional school" category includes individuals who report their primary activity is attending a graduate school or professional education program. [% calculation: row 21/row6]
- 21. The "other continuing education" category includes individuals who report their primary activity is furthering education at a non-graduate level. [% calculation: row 22/row 6
- 22. The "available/seeking" category includes graduates who report they are not employed and are actively seeking employment. [% calculation: row 23/row 6]
- 23. The "primary placement in WI" category reflects the number of majors who report a placement with their primary activity in the State of Wisconsin. [% calculation: row 24/row 6]

SUCCESS RATE – OVERALL: 99%

Graduates reporting post-graduation information were grouped into specific activity categories based on their survey responses. Each category is mutually exclusive, as graduates who were involved in more than one activity were asked to specify their primary activity. The following charts summarize career outcomes for reporting graduates. "Success rate overall" (formerly placement rate) refers to the percentage of respondents who indicated they were employed on a full-time or part-time basis in or out of their fields of study, enlisted in the armed forces, involved in volunteer service (e.g., AmeriCorps, Peace Corps), and/or enrolled in graduate/professional school or other continuing education. Due to rounding, totals may not equal 100%.

KNOWLEDGE RATE: 85%

Information about post-graduation plans was gathered from 85% of majors who graduated in Summer 2019, Winter 2019, and Spring 2020. The term "knowledge rate" refers to the percentage of graduates in each major for whom the institution has reasonable and verifiable information concerning post-graduate career activities. Viterbo University has consistently exceeded the 65% minimum knowledge rate recommended by the National Association of Colleges and Employers. The table below shows knowledge rate by college.

POST-GRADUATION OUTCOMES BY COLLEGE

The following information shows the post-graduation outcomes for each of the three colleges and for the associate degree program.

GEOGRAPHIC DISTRIBUTION

All of the 370 majors reporting a placement (number reporting less those not seeking and those still seeking) reported a geographic location for their post-graduation activities. 254 (69%) reported primary placement in the State of Wisconsin. The following charts reflect the number of majors reporting specific geographic areas of post-graduation activities.

Out of the 254 majors reporting primary activities throughout the State of Wisconsin:

- **City of La Crosse: 114** (45% of the 254-reporting placement in Wisconsin, and 31% of the 370 that reported any location)
- Coulee Region (an area that includes the counties of La Crosse, Vernon, Trempealeau, Jackson, and Monroe): 155 (61% of the 254-reporting placement in Wisconsin, and 42% of the 370 that reported any location).

A list of communities identified by five or more majors as the primary site of post-graduation activities appears below, as well as the number of majors reporting activities in the community.
