Graduate Placement Report: Viterbo University

Class of 2010: Bachelor Degree Graduates

(December 2009, May 2010, and July 2010 Graduates)

Questions about the report may be directed to the Career Services Office
 Beth Dolder-Zieke, Director
 Anne Ellefson, Career Specialist
 608.796.3828

The overall placement rate for the class of 2010 is 96%.

This placement rate reflects the percentages of 2010 graduates who received a Bachelor's degree and report that their primary activity is enrollment in graduate/professional school or other continuing education; service in a branch of the armed forces; participation in volunteer service, such as AmeriCorps or the Peace Corps; or employment, either on a full-time or part-time basis in or out of their fields of study.

All percentages in this report are based on the total number of graduates reporting, not the total number of graduates. The 2010 alumni reporting they are currently not working and not seeking employment are not included in the placement tabulations. In addition, percentage calculations at .5 or above have been rounded up to the nearest number and those below .5 have been rounded down to the nearest whole number.

A total of 398 students were listed on the registrar's official graduation lists as of October 15, 2010. Fourteen of these students completed studies in two majors, resulting in 412 majors being conferred. Information was gathered from 82 % of these graduates.

Abbreviation Guide

AADM: Arts Administration	ACCT: Accounting
ARED: Art Education	ARTS: Studio Art
BFSS: Broad Field Social Studies	BIOC: Biochemistry
BIOL: Biology	BIOP: Biopsychology
BFSS: Broadfield Social Studies	BUED: Business Educations

NUTR: Nutrition and Dietetics	OMGT: Organizational Management
PSYC: Psychology	RLST: Religious Studies
SOCL: Sociology	SOWK: Social Work
SPAN: Spanish	THTR: Theatre

Definition of Terms/Explanations of Calculations

1. The “total reporting” category refers to graduates about whom data was gathered from sources deemed to be reliable sources by Career Services staff members. Those sources include information obtained via forms completed by graduates, telephone calls to the graduate or his/her family members, emails from the graduate, and information from professors and other personnel who have remained in contact with the student.
2. The “not seeking” category includes people who report they are not a part of the work force or continuing their educations but are not seeking employment at this time.
3. “Total Placed Overall” refers to those individuals in the designated major about whom data was collected and who indicated they were employed either on a full-time or part-time basis in or out of their fields of study, enlisted in a branch of the armed forces, involved in volunteer service (e.g., AmeriCorps, Peace Corps) and/or enrolled in graduate/professional school or other continuing education.
4. The “placed in field” category includes individuals who are employed in their field of study, attending graduate/ professional school or other continuing education, enlisted in one of the branches of the armed forces, or participating in a volunteer service experience, such as VISTA. Students reporting employment are asked to disclose whether they perceive their employment related, somewhat related or not related to their educations.
5. The “employed in field” includes individuals who report being required to complete their majors for their current employment positions or whose work requires a college degree and/or utilizes the knowledge/skills acquired during their college educations. Graduates with double majors who are working in fields related to one of their majors are listed as “employed in field” for their respective listings in both majors. Calculations for percentages in this category consider the total number of majors employed in their fields and the total number of majors reporting, minus those who indicated they were not seeking employment at this time.
6. Individuals listed in the “military” columns are those who report their primary activity is in a branch of the armed forces. Percentage calculations are based on the number of majors reporting, minus those who indicated they were not seeking employment at this time. These individuals are also included in the “placed in field” category.
7. The “Volunteer Service” category includes individuals who report their primary activity is in a volunteer or service organization, such as Jesuit Volunteers. Percentage calculations are based on the number of majors reporting, minus those who indicated they were not seeking employment at this time.
8. The “graduate/professional school” category lists individuals who report that their primary activity is attending a graduate or professional educational program. Percentage calculations are based on the number of majors reporting, excluding those who indicated they were not seeking employment at this time.
9. The “other continuing education” category includes individuals who report their primary activity is furthering their educations at a non-graduate level. Percentage calculations are based on the number of majors reporting, minus those who indicated they were not seeking employment.
10. The “employed out of field” category includes individuals who report working in positions that do not require a bachelor’s degree and/or positions that do not use the skills/knowledge they gained from their programs or majors. Calculations for percentages in this category consider the total number of majors who report being employed outside their fields and the total number of majors reporting, minus those who indicated they were both not employed and not seeking employment at this time.
11. The “available/seeking” category includes graduates who report they are not employed and are actively seeking employment. Percentage calculations are based on the number of majors who reported and indicated they were currently seeking employment and the total number of majors who reported, excluding those who are not working and not seeking employment.
