Graduate Placement Report: Viterbo University
Class of 2013: Bachelor Degree Graduates
(December 2012, May 2013, and July 2013 Graduates)

Questions about the report may be directed to the Career Services Office
 Beth Dolder-Zieke, Director (608.796.3827)
 Anne Ellefson, Career Specialist (608.796.3839)

The overall placement rate for the class of 2013 is 97%.

This placement rate reflects the percentages of 2013 graduates who received a Bachelor's degree and report that their primary activity is enrollment in graduate/professional school or other continuing education; service in a branch of the armed forces; participation in volunteer service, such as AmeriCorps or the Peace Corps; or employment, either on a full-time or part-time basis in or out of their fields of study.

All percentages in this report are based on the total number of graduates reporting, not the total number of graduates. The 2013 alumni reporting they are currently not working and not seeking employment are not included in the placement tabulations. In addition, percentage calculations above .5 or above have been rounded up to the nearest number and those below .5 have been rounded down to the nearest whole number.

A total of 449 individual students were listed on the registrar's official graduation lists as of October 15, 2013. Nine of these students completed studies in two majors, resulting in 458 majors being conferred. Information was gathered from 86% of these graduates.

1. The “**number reporting**” category refers to graduates about whom data was gathered from sources deemed to be reliable sources by Career Services staff members. Those sources include information obtained via forms completed by graduates, telephone calls to the graduate or his/her family members, emails from the graduate, and information from professors and other personnel who have remained in contact with the student.
2. The “**not seeking**” category includes people who report they are not a part of the work force or continuing their education and are not seeking employment at this time.
3. “**Total reporting less not seeking**” is the difference between number reporting and the number not seeking. Percentages for columns 4-12 are based on this number.

Graduates with double majors who are working in fields related to one of their majors are listed as “employed in field” for their respective listings in both majors.
