

Graduate Degree Programs – Retention Rates: Fall 2023

The retention rates below are based on the students who enter the program each fall term. The second-year retention rate indicates the number and percentage who are enrolled the subsequent fall term. As students in the cohort graduate from the program, they are included in the retention rate.

***NOTE: Starting with the Fall 2020 cohort, the determination of cohorts changed from using the Federal Cohort Code to the student’s Graduate Program Start Date. This change is necessary so the data matches how it is displayed on the Graduate Programs Retention & Graduation Dashboard. Also, fall cohorts will only include students who started in the fall term; whereas previously fall cohorts included those who started the prior summer term.**
