Reflections – Educational Leadership Program

Name: ___________________________ Date: ___________________________

Standards/Criteria Addressed: ___________________________________________________

As I reflect on my progress toward becoming a Powerful Leader of Learning…

What? (Key learnings from this opportunity; may answer the question: What were key points noted? What was observed? What innovations/trends were observed?)

So What? (Implications for the principalship/directorship; may answer the questions: What are the implications for the principal/director of special education? What insights have you had as a result of this opportunity? What might be some next steps? What supports may have to be considered? What were frustrating/exciting/helpful/effective/hardest/easiest? What things could you do/have done to enhance this opportunity?)

Now What? (Specific next steps to be taken; may answer the questions: What are next steps you will take as a result of this opportunity? What things will you do the same/differently in the future? What skills/knowledge will you further develop as a result of this opportunity? What will you do to specifically ensure future success or prevent future failure? What goals have you set as a result of this opportunity?)
