DAHL SCHOOL *of* BUSINESS

## MBA with International Business Emphasis

Viterbo's MBA program offers an optional emphasis in international business that includes an optional immersion experience in China. To meet the requirements of this emphasis, students choose electives in international business and focus their capstone project on a topic related to international business.

Students choosing the MBA with International Business Emphasis begin and end the program with a cohort of professionals from a variety of industries. Students choosing this emphasis select two of their elective courses in the area of international business and focus their capstone project study on international business topics.

Students may begin this program in May, August, or January and graduate in two years while attending class one night per week from 6–10 p.m. or in as little as one year while taking classes two nights per week. Some courses are offered in two formats – face to face or blended/online – so you can choose your most convenient option at that time.

### Two Year Schedule Sample

	1 <sup>st</sup> half of the semester (8 weeks, one evening per week, 6-10pm)	2 <sup>nd</sup> half of the semester (8 weeks, one evening per week, 6-10pm)
