

Student Outcome Data
Master of Business Administration
Programs Completion Rates

Graduation Rates:

For students who progress at a full-time status, the expected time to graduate with a Master of Business Administration degree is two years, consisting of six terms. The Program runs year round with fall, spring and summer sessions, and new cohorts starting each fall and spring semester. The two-year, six-term completion rate for students who start in fall averages 76%, in spring averages 53%. Because students in the MBA program typically work fulltime as private and public enterprise leaders, it is not uncommon for students to take a semester off or progress at a slower rate to balance the demands of their professional and personal lives. The increased graduation rates in the third and fourth year after enrollment display that trend. The overall third and fourth year graduation rates average 76% and 86% respectively.

	Cohort Graduation Rates										
	FA2011	Sp2012	FA2012	SP2013	FA2013	SP2014	FA 2014	SP2015	FA2015	SP2016	FA2016
1-Year	31%	18%	8%	0%	11%	4%	3%	16%	13%	21%	15%
2-Year	84%	65%	75%	50%	72%	46%	74%	37%	77%	68%	18%

Enrollment and Retention:

Enrollment has remained steady through Spring 2018. The on-campus MBA program has leveled off since its peak enrollment in 2015, but total enrollment has increased with the addition of the online MBA in Health Care Leadership in 2016. The overall enrollment average for 2016-2018 is at 120% of the historic MBA average and slightly above the peak achieved in Spring 2015 prior to the online program. Retention rates average 88% (69%-100%) for data collected from 2009-2015.
