Eligibility: Participants must be a senior nursing student

Program Description:
Step into the culture of native Alaska while completing your clinical synthesis. This fantastic global education experience in Bethel, Alaska will include:

- Experience the rewards and challenges of providing health care in a remote community serving over 50 native villages.
- Work in a delta community hospital, which is the primary care facility for thousands of native people.
- Work in a hospital, clinic, and community health setting to meet the needs of patients and their families with high risk health concerns.
- The Yukon medical facility offers experience in Medical Surgical, Maternal Child, Pediatric, and Emergency care nursing.
- Viterbo students will be conducting a preventative/screening clinic for the annual Native Dance Festival held at the Bethel Community Center.

Estimated Program Cost:
Estimated $2,900-$3,150
*Based on a realistic estimate of participants. Fees may change based on final enrollment and exchange rate fluctuation.
* Includes academic expenses, airfare, accommodations, cultural activities, local transportation, and most meals.
* Does not include personal spending money, some meals, books and supplies, or trip insurance.
