

Western Technical College and Viterbo University DUAL ENROLLMENT VERIFICATION FORM

Dual enrollment in the ADN and BSN Completion program allows students to complete a bachelor's degree in nursing in an expedited three-year plan. While enrolled in both programs, students will complete the 38 required Western Technical College nursing course credits for transfer to the Viterbo BSN Completion program; in addition, complete a majority of the Viterbo credits required for the BSN. After successfully graduating with an ADN and providing evidence of RN licensure, students will enroll to complete the final coursework for their BSN with as little as two semesters remaining*.

Students will apply for financial aid at Viterbo, and Viterbo's financial aid office will make payment to Western Technical College for the courses enrolled in at both schools. Students can not apply for aid at two places; therefore, a "Consortium Agreement" must be signed.

To become enrolled in the program students must verify acceptance into Western Technical College's nursing program with signature from the Associate Dean, using this verification form.

Program Requirements

- Provide verification of admission into Western Technical College's Nursing Program
- Complete Western Technical College general education requirements (32 credits) with a grades of "C" or better
- Sign financial aid Consortium Agreement
- Attend dual enrollment orientation prior to the program beginning
