Strengths:  
 Areas for Focus:

Category	Not apparent	Somewhat	Agree
<b>Student Learning Outcomes</b>			
1. The plan lists 3-10 outcomes that seem appropriate to assess.			
2. The plan lists 3-10 outcomes that seem measureable for purpose of assessment.			
3. Outcomes are stated in terms of what students should be able to know, do, value.			
<b>Assessment Methods and Criteria for Success</b>			
4. The assessment methods appear to measure the accomplishment of the outcome.			
5. The assessment methods appear feasible and appropriate given resource and time constraints.			
6. At least two direct methods are listed for each outcome. Indirect methods are supplemental in nature.			
7. Criteria for success are established for each assessment method.			
<b>Timeline</b>			
8. Learning outcomes are assessed on a timeline that is less than or equal to 8 years.			
<b>Assessment Results</b>			
9. The assessment impact report includes assessment results.			
10. The assessment results include sufficient data to determine whether assessment actually took place. (i.e. rubrics, assignments, documents with results are attached.)			
11. The record includes sufficient analysis or reflection for program/unit to judge the success of the outcome.			
<b>Action Plans and Follow-Up</b>			
12. Action plan follows results.			
13. The described action plan(s) appear reasonably likely to foster the intended outcome.			
14. Follow-up data and evaluation included after action plan implementation.
