

University Enrollment Trends: Twelve-Month Unduplicated Enrollment

12-Month Unduplicated Full-Time Equivalent Count

Data Standard: National Center for Education Statistics (IPEDS).

Definitions

Unduplicated Credit Headcount

The count of all students enrolled in at least 1 credit of coursework between July 1 and June 30

Credit Hour

A unit of measurement representing the equivalent of approximately one hour of instruction per week over the entire 15-week term.

12-Mo. Unduplicated Full-Time Equivalent (FTE)

The 12-mo. unduplicated FTE is calculated by dividing the credit hour total by the average credit load that full-time students take on a typical academic plan. (For example, the undergraduate credit hour total of 57,115 for 2012-2013 is divided by 30 to get an FTE of 1,904.)
