

Medical College of Wisconsin School of Pharmacy

What is the Dual Degree Program?

- Students complete 3 years at an undergraduate institution and 3 years at MCW to complete a bachelor's degree *and* the Doctor of Pharmacy degree in just 6 years!
- Students apply for admission to the dual degree program and are interviewed twice by an MCW pharmacy faculty member.
- Undergraduate advisors know the courses at your institution that will satisfy MCW's prerequisites for admission.
- Admitted students have opportunities to engage with MCW faculty, staff, and students during undergraduate years.
- After Year 1 at MCW, students submit a transcript of their PharmD coursework to their undergrad institution, which in turn confers the baccalaureate degree.

Our dual degree program helps students achieve their career goal in as few as 6 years instead of the traditional 8!

Froedtert & MCW is **#3 IN US**
for quality among nation's top-
performing academic medical centers

(VIZIENT RANKING OF 95% OF ACADEMIC MEDICAL CENTERS)

WISCONSIN'S
LARGEST

Zablocki VA Medical Center ranked
among **TOP VA HOSPITALS**
in US for patient experience and access

(US DEPARTMENT OF VETERANS AFFAIRS, FOURTH QUARTER 2017)

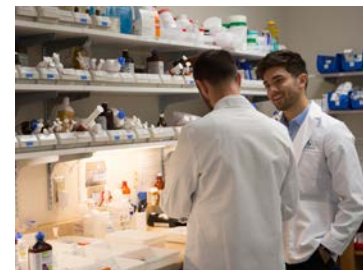

MCW's Advantage

Why choose MCW over another PharmD program?

- Only year-round, 3-year PharmD program in Wisconsin
- Located on a premier academic health sciences campus
- Innovative classroom design, simulation and telehealth labs
- Clinical experiences begin in Quarter 2 and continue throughout
- Interprofessional education abounds
- Small class size and diverse student body
- Dedicated and experienced faculty and staff

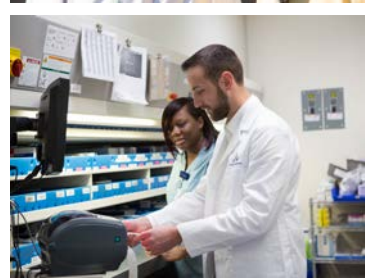

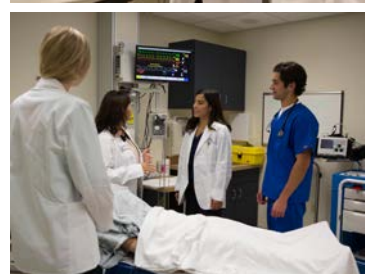

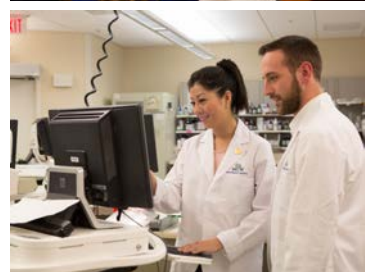

Graduating one year earlier means a **smaller financial burden** and the ability to **begin your career and earnings one year sooner.**

Student Learning

The MCW School of Pharmacy offers the only year-round, 3-year PharmD program in Wisconsin.

Our unique program features:

- Small classes
- Innovative instruction
- Interprofessional experiences
- Scholarly Pathways
- Early clinical rotations at premiere medical centers and community pharmacies across Wisconsin

Didactic Instruction: Years 1 & 2

Dynamic learning environment and instructional methods featuring:

Team-Based Learning

Group projects and presentations, case studies, practice sessions

Patient Care Lab

Reinforces classroom learning, skill development, certifications

Integrated Sequence of Courses

Team-teaching approach to learning using multiple perspectives of clinicians and faculty

Interprofessional Education

Opportunity to learn with medical and other health professions students

Academic quarters are 10 weeks of classes followed by one week of final exams and a 2-week break.

Evaluating Student Success

MCW School of Pharmacy uses a pass/fail grading system:

Honors

(95% or greater)

Satisfactory

(75 - 94%)

Unsatisfactory

(74% or less)

Benefits of this model:

- Increases student well-being
- Decreases stress and anxiety
- Increases class cohesion
- Increases motivation
- Decreases competition
- Encourages self-regulated learning and competence
