

Sample Four-year Plan for Biology

Note: The four-year plan is for example purposes only. Students should refer to the catalog in effect upon their entry to Viterbo for more specifics on requirements of the core curriculum, major, and degree. Some courses have certain semester rotations that may or may not be reflected below. Your advisor will assist you with actual registration planning to accommodate these rotations. For complete information, see the current undergraduate catalog.

Notes

¹Initial math course based on placement. If placed into MATH 113 or 220, take VUSM FVT first semester instead. MATH 113 is only needed if the student plans to take PHYS 250/270 and not for those taking SUST 350 GIS.

²Students may take PHYS 250/260 and PHYS 270 or SUST 350 GIS.

³Pre-health students (medical, dental, optometry, chiropractic, podiatry, physical therapy, physician assistant, pharmacy, veterinary) should consider electives/minor that are requirements for entrance into graduate school (i.e., additional physics and chemistry, calculus, psychology, sociology, human anatomy/physiology, etc.). Students must complete 120 credits (including 40 credits upper division) for BS degree.

⁴Seventeen credits of upper division from BIOL including at least one from each of these three categories (three courses must include a lab):

- **Organismal Biology:** 317 – Plant Biology, 347 – Human Physiology, 353 – Fundamental Neuroscience, 426 – Immunology, 482 – Human Anatomy
- **Cell and Molecular Biology:** 305 – Survey of Biochemistry, 370 – Biochemistry, 376 – General Microbiology, 430 – Molecular Genetics
- **Ecology and Evolution:** 310 – Limnology, 321 – Conservation Biology, 340 – Animal Behavior
